

Suffield Veterinary Hospital September 2013 Pets of the Month

We would like to introduce you to, *Si*, *Katrina*, and *Winston*. They are September's pets of the month. These wonderful cats are looking for a forever home.

Si is the black and white tuxedo. He is approximately one and a half years old. He's the youngster of the group. He loves interacting with our staff and the other cats. He could most likely learn to drive a car, if food were involved.

Katrina (above) is the cream torti, and *Winston* is buff colored. We think they are both around nine to ten years old. They are very sweet, and love to be pet and brushed. If we would let her, *Katrina* would love to follow the staff everywhere, and then take a nice nap.

Winston is very sweet and laid back. He has beautiful expressive eyes that will melt your heart. We think if he had two wishes, the first would be to find a permanent home, and the second would be to become a couch potato.

All three are neutered and up-to-date on all vaccines. If you are interested in adopting one of these sweethearts, please call Suffield Veterinary Hospital at (860) 668-4041.
